## General arrangement

1. Overall height 655 mm, estimated (range 640–680), from the ALICE frame on gbrich's pack. All other values scale with it.
   posts #68, #72
2. Back view is square to the camera; front view is corrected for a vertical foreshortening of 0.88.
   Hasbro product photos
3. Side depths are schematic (worn photo, yaw ~14°, about ±15%).
4. Dashed: hidden in the photos (behind straps, belt, power cell).

Overall height 655 mm (range 640-680). Pixel readings: tools/pack_data.py · method: docs/METHOD.md

## Holes (centre from datum, mm)

| | | | | | |
|---|---|---|---|---|---|
| H1 | x | 25 | y | 30 | Ø~5 |
| H2 | x | 238 | y | 25 | Ø~5 |
| H3 | x | 308 | y | 97 | Ø~5 |
| H4 | x | 20 | y | 160 | Ø~7 |
| H5 | x | 134 | y | 198 | Ø~5 |
| H6 | x | 176 | y | 199 | Ø~5 |
| H7 | x | 162 | y | 256 | Ø~5 |
| H8 | x | 178 | y | 324 | Ø~7 |
| H9 | x | 135 | y | 349 | Ø~6 |
| H10 | x | 177 | y | 350 | Ø~5 |
| H11 | x | 169 | y | 395 | Ø~5 |
| H12 | x | 169 | y | 634 | Ø~5 |

Slot 1: x 32 y 60 46 × 6

Slot 2: x 234 y 63 47 × 6

## Notes

1. Datum: top-left corner of the board's bounding box in the straight-on back photo (x right, y down).
2. Hole diameters are approximate (±1 mm); positions ±2 mm plus the ±3% scale.
3. Upper and lower widths differ by a step on the power-cell side, hidden behind the power cell.
4. The stock board's lip wraps the shell base; an aftermarket flat board does not. post #55

| D | Bumper knob (copper) | centre x | 190 | y | 543 | Ø | 33 | | |
| E | Lower cap (DANGER label) | centre x | 236 | y | 622 | Ø | 66 | | |

## Notes

1. Envelopes are the outer extents of each part as seen from the front, read at full resolution (±3 mm) and scaled with a horizontal 0.338 and a vertical 0.384 mm per pixel.
   Hasbro product photo 1
2. Front-view horizontal values carry the foreshortening uncertainty (0.85–0.92), about ±5%.
3. Parts at different depths are drawn in one plane (no perspective correction for depth).
4. Check: the power cell overhangs the board by 27 in this view and 17 in the back view; the 10 mm difference is the size of the front-view horizontal uncertainty.
   Hasbro product photos 1 and 9
5. Part names follow common GBFans usage.

Overall height 655 mm (range 640-680). Pixel readings: tools/pack_data.py · method: docs/METHOD.md

**CAKE ON REAR PANEL, SIDE**

1:4 (panel thickness schematic)

## Notes

1. Rear panel and cake measured by gbrich's photos on a 1 cm cutting mat (camera calibrated from the grid).
   post #23
2. Lid and lenses estimated on Hasbro's front photo. The four lenses form a square (93 × 93 mm), which checks the foreshortening correction.
   Hasbro product photo 1
3. The housing (Ø~267) clears the 262 mm panel; the lid (Ø~240) covers the ~222 mm opening.
   Hasbro product photos 1 and 7
